High-velocity Software Engineer & AI Systems Architect with 5+ years of experience designing autonomous agent architectures, multi-tenant SaaS platforms, and low-latency algorithmic trading engines. Proven record of scaling systems to 100k+ users with 99.99% uptime.

CORE TECHNICAL COMPETENCIES

- **Languages:** Python, TypeScript, JavaScript, SQL, HTML5, CSS3, Go
- **AI & ML Engineering:** Google Gemini 2.5/3.5, OpenAI API, LangChain, RAG Systems, Model Cascades, Self-Healing Sentinel
- **Full-Stack & Cloud:** React, Next.js, Node.js, FastAPI, Streamlit, Cloudflare Pages, Docker, AWS, Redis, PostgreSQL
- **Security & Reliability:** Content Security Policy (CSP), JWT Auth, XSS Sanitization, Webhooks, CI/CD Pipelines

PROFESSIONAL EXPERIENCE

Lead AI & Full-Stack Systems Engineer — NextGen Tech Innovations (2024 – Present)

- Engineered an autonomous web application studio that generates production-grade, zero-error web applications with real-time model failover.
- Deployed multi-page serverless apps directly to Cloudflare Pages edge network, reducing global latency by 68%.
- Integrated self-healing watchdog daemons that maintain continuous 24/7 service availability.

Senior Backend & Systems Engineer — Apex FinTech Solutions (2022 – 2024)

- Architected automated trading bot engine handling multi-leg options orders with sub-50ms execution latency.
- Implemented WebSocket real-time feeds processing 10,000+ market events/sec with zero memory leaks.

KEY PROJECTS & OPEN-SOURCE

Autonomous AI Website Builder & Agency Suite

- Built end-to-end full-stack generator with dynamic CSS/JS component injection, client authentication, and 1-click Cloudflare deployments.
- **Tech Stack:** Python, Google Gemini, Streamlit, Cloudflare Wrangler, Tailwind CSS.

Algorithmic Indian Market Trading Suite

- Real-time quantitative trading terminal with live tick charts, order router, and risk management guards.
- **Tech Stack:** Python, Streamlit, WebSockets, Pandas, NumPy.

EDUCATION & CERTIFICATIONS

- **Bachelor of Technology in Computer Science & Engineering** — First Class with Distinction
- **Google Cloud Certified:** Professional Cloud Architect
