AIR-GAPPED SOVEREIGN COMPUTING FOR RETAIL & SUPERMARKETS

Zero Internet Dependence • Sub-4ms Thermal Receipt Checkout • Zero Monthly SaaS Fees

100% OFFLINE BILLING

THE 3 CRITICAL CLOUD TRAPS FOR MODERN SUPERMARKETS & RETAILERS

Broadband Outage Freezes

When local broadband fails during peak evening shopping hours in Patna, cloud POS counters freeze. Customers abandon shopping carts and daily revenue is lost instantly.

Perpetual SaaS Subscription Rent

Paying ₹20,000 to ₹50,000 every year in recurring per-terminal software rent drains retail profits for basic checkout software store owners never actually own.

Shelf Label & Pricing Disputes

Messy handwritten shelf price tags cause customer disputes and cashier arguments at checkout when shelf prices don't match barcode till prices.

The RQL Sovereign Solution: 100% Offline Checkout Mesh

Every retail tool from Rehan Quant Lab is hand-forged in 100% pure native Rust for Windows. Win32 PE32+ executables operate with zero network latency directly on local checkout terminals. Standalone and local LAN mesh operations ensure all 5 checkout counters continue scanning barcodes, printing thermal slips, and reconciling cash drawers even if internet is completely cut. Formally analyzed and certified clean by Microsoft Defender Security Intelligence.

`Sub-4ms Thermal Printing` `Local LAN Router Mesh` `Batch Shelf Barcode Tags` `Dynamic Bharat UPI QR Invoicing` `Zero Monthly Rent`

Zero Cloud Leak

Zero external internet dependency. Store pricing, customer records, and inventory remain strictly in local RAM.

Perpetual Ownership

Pay once, own forever. Zero monthly SaaS subscription fees, zero forced terminal licenses.

LAN Mesh Sync

Local router socket synchronization connects up to 5 tills with sub-10ms peer-to-peer inventory updates.

14-Day Guarantee

100% risk-free. If it fails to boot instantly or eliminate SaaS expenses, full unconditional refund.

BNI PATNA 1-TO-1 REFERRAL TRIGGER

Ask fellow BNI members, retail showroom & supermarket owners in Patna: *"When internet goes down on a busy Saturday evening in Patna, do your store checkout counters freeze and cause customers to abandon their shopping carts, or are you paying ₹20,000 to ₹40,000 every year in recurring software rent for tools you never own?"* If yes, introduce them to Founder Mohammad Rehan (+91 70915 18548) for free on-site setup in Patna!

EXECUTIVE QUESTIONS & ANSWERS (Q&A FOR RETAILERS)

Q: What happens if shop internet disconnects?
Nothing stops. RQL Retail POS and StoreChain run 100% offline via local router sockets. You can ring up sales and print receipts all day without internet.

Q: Will it work with our existing thermal printer?
Yes. All standard 80mm and 58mm USB/Ethernet thermal printers (TVS, Epson, NGX, Posiflex) are supported with raw high-speed ESC/POS commands.

Q: Has the software been certified safe by Microsoft?
Yes. Every binary is formally analyzed and marked **Completed • Clean** by Microsoft Defender Security Intelligence (WDSI) with zero malware or backdoors.

Q: Do you provide installation support in Patna?
Yes! Rehan Quant Lab is based right here in Patna. We provide free on-site hardware installation, staff training, and a 14-day unconditional money-back guarantee.

Direct Store Onboarding & Patna Retail Hardware Setup: Standalone Win32 PE32+ binaries with cryptographic hardware attestation (`license.rql`). Free on-site hardware deployment, thermal printer setup, staff training, and pilot demonstrations across Patna and worldwide via Gumroad delivery.
